PRIMARY SCHOOL NEWSLETTER

JULY 2015

DEAR PARENTS, STUDENTS AND WELL WISHERS,

As we started our academic journey in the month of June with lots of hope and aspirations, we continued to do so. With children having settled, the month of July began with lots of academic and special activities.

As we at DPS, Bangalore North believe that “children are not things to be molded, but people to be unfolded.” – Jess Lair.

Here are a few activities and varied programmes which were done by our students, the future leaders.

TRAINING YOUNG MINDS

Leaders are born not made .They are endowed with qualities which sets them apart from others .On JULY 4th 2015 the young leaders of the primary section had their first training session . They were trained on the principles of safety .The workshop was conducted by Mr. ROHAN OBEROI of Momentum India Ltd. The training involved information on First Aid , Fire Fighting , Disaster Management , Personal and Travel Safety and last but not the least Cyber Safety. The children enjoyed the fun - filled entertaining and educative session. It was an eye - opener for all of them .All in all everyone had a whale of a time. The programme ended with the vote of thanks.

The month of July has been equally eventful for the students particularly in enhancing and developing their all-round skills. This was achieved by various activities and competitions.

CCA activities varied from Solo Song competition , Book Mark competition and English Essay Writing Competition in which the children participated enthusiastically. Children selected for the final round sang songs which varied from regional language to shlokas....it was a treat to hear them sing such melodies tunes

1) The Handwriting competition

The students were encouraged to write in their best handwriting possible and it was evaluated based on the parameters like clarity & formation of letters, neatness, spelling, punctuation, space between letters, etc.

2) *The Math's Quiz conducted by CBSE*

The Avishkar Quiz Series organized by CBSE to promote creative and innovative spirit among school children in the area of Science, Mathematics and Technology was conducted on the 9th July 2015 and this was the School level Competition. The students participated in this with lot of enthusiasm.

3) *Personal Grooming and Etiquette*

In our endeavor to better the personal grooming and etiquette of our little students, we spent our time in knowing the dos and don'ts of acceptable behavior of our society in terms of table manners and personal grooming. Discussions and role plays were performed so as to understand them better.

4) *Inter-school Art competition*

This was organized by K.L.E. Society's School, Rajajinagar in association with Bangalore Academy of Periodontology and K.L.E. Institute of Dental Sciences.

The theme was "Healthy Mouth for Healthy Body" to commemorate 'Oral Hygiene Day" which falls on 1st August 2015. The students were encouraged to draw based on this theme and the winners of this competition would be felicitated on that day.

5. Book Mark Making:

As per our ongoing efforts to make this a favorite of our students we came up with activities which are not only fun-filled but are also useful in practical applications. We initiated a book mark making activity which was done with lots of creativity & zeal by our students.

With Best Wishes

Manju Balasubramanyam

Principal, DPS, BN
